

Building Communities Against Sexual Violence

With data from the National Institute of Justice showing that one in five college women (and one in 16 men) will experience some form of non-consensual sexual activity by graduation, the widespread impact of sexual violence on students presents an urgent and pressing challenge for our nation's campuses.

At the same time, several universities across the US have come under investigation for their failure to eliminate a hostile sexual environment—in violation of Title IX—leading the Department of Education to issue new mandates for sexual assault education.

Haven is EverFi's premier online learning platform addressing the critical issues of sexual assault, relationship violence, and stalking, which impact countless college students across the country. Built in collaboration with leading researchers and practitioners, Haven is an interactive module designed to engage and empower students to createsafe, healthy campus environments.

Promoting Student Wellness

Haven combines the power of cutting-edge instructional design and rich media to educate students about the elements of healthy relationships, the importance of sexual consent, and the role of bystanders in creating safe, healthy communities. The 1-hour curriculum helps meet Federal prevention education requirements outlined by the Department of Education and the Campus Sexual Violence Elimination Act (Campus SaVE Act).

OUR APPROACH

- Highly interactive design
- Personalized to every student

OUR PLATFORMS

- Award-winning
- Web-enabled implementation

OUR STRENGTH

- Proven efficacy
- 12+ year track record in producing student knowledge gains

1 IN 5

FEMALE COLLEGE STUDENTS WILL EXPERIENCE SOME FORM OF NON-CONSENSUAL SEXUAL ACTIVITY BY GRADUATION.

50%

OF REPORTED SEXUAL ASSAULTS ON COLLEGE CAMPUSES INVOLVE ALCOHOL.

EVERFI.COM

EverFi's Higher Education digital learning platform provides comprehensive and effective solutions to the critical 'wellness' issues that fundamentally impact students throughout college and beyond.

Building Student Engagement, Creating Campus Change

Haven uses a population-level approach to educate all students on the issues associated with sexual assault and relationship violence, taking into account their unique perspectives and experiences.

A Focus on Relationships: In Haven, students are encouraged to reflect on their personal values and expectations in relationships as a foundation for personal engagement. The program's primary focus is to promote healthy relationships based on positive communication and respect. Haven demonstrates for students the warning signs of abuse, and situations that may be challenging or confusing regarding consent in their own relationships and those of others.

Personal Connections: Haven uses language and scenarios that are inclusive and sensitive of diverse identities and experiences to provide a relevant and engaging learning environment for students. By offering a range of perspectives and encouraging personal reflection, and drawing upon individual values and strengths to guide student engagement, Haven creates a powerful connection to these issues among students.

Real-Life Scenarios: Throughout Haven, rich and in-depth scenarios serve to model healthy behaviors, increase awareness of opportunities to intervene, and provide a range of strategies for taking action. Additional scenarios encourage students to challenge sexist language and attitudes and provide guidance for supporting a friend who may be a victim of sexual assault or relationship violence.

School Benefits

- Educate students on a vital subject via a concise, accessible, engaging, personalized (and private) online platform
- Mitigate institutional risk, liability, and negative reputational repercussions
- Protect and better serve students by helping to build safer communities
- Address growing list of federal and state mandates for prevention education
- Develop enhanced, targeted, data-driven prevention programs

HAVEN PROVIDES

- Key definitions and statistics
- Reflective and personalized content
- Bystander skill-and confidence-building strategies
- Campus-specific policies, procedures and resources
- Rich data summaries to inform future programming
