**Ruben Flores, Director of Government Relations
and Business Affairs**

Washington's Public Baccalaureate Institutions

Continuous Commitment and Collaboration Across Education Sectors

We are committed to:

Recognizing multiple pathways and programs that provide college or preparatory college experience for students in high school.

Emphasizing the role and value of learning.

Supporting access to, enrollment in and successful completion of rigorous curriculum in high school.

Addressing issues of equity and access.

Encouraging intentional participation, through unbiased, student focused advising that aligns with a student's personal, career and educational goals and interests with an emphasis on fit, including academic readiness and preparation.

Sector Concerns And Questions

- Collaboration and consultation in development
- The accurate and clear communication of what dual credit is, including its practices, processes and policies
- The true costs of offering dual credit programs to students, families, districts, and institutions of higher education

The Path Forward

The creation of a work group to evaluate the Covering the Costs of Dual Credit for Students and Families report recommendations with the goal of advancing jointly supported dual credit recommendations in the 2021 legislative session.

Our Sector, The State Board for Community and Technical Colleges, and The Independent Colleges of Washington have advocated for this path since 2018.
