The Council of Presidents (COP) is the association of Washington’s six public baccalaureate degree granting college and universities. Located in Olympia, Washington, COP strives to be a common voice for the public baccalaureate sector and the most respected and trusted resource for decision makers on issues affecting public higher education. COP serves as the coordinating role for a number of initiatives and activities common to the public baccalaureate institutions, fostering coordination and collaboration among the public baccalaureates as well as with other educational partners, both in Washington and nationally. This report is also available online at councilofpresidents.org.

Introduction

A new law in Washington, [RCW 28A.600.287](#) (see [Appendix A](#)), requires Washington's public four-year institutions to report information about their College in the High School (CiHS) programs every year. This information must be sent to an organization that represents the presidents of public four-year institutions starting September 1, 2024.

In 2023, [SB 5048](#), College in the High School Fees and Funding, was passed. Before this law, students who took CiHS courses and wanted to earn college credit had to pay a fee, whether paid for by the student or the school district with outside funding. The new law removed this cost for public high school students, so now students attending public high schools, as defined in [28A.150.010](#), can earn college credit for free by enrolling in these courses. However, students can still decide whether they want to register to earn college credit.

The law also requires colleges to report information about the students taking these courses. This includes demographic data about the students enrolled, geographic data about the courses offered, data about participation rates and the amount of high school and college credit awarded, and whether students enroll in college after high school.

This report examines the CiHS courses offered by four universities in Washington: Central Washington University (CWU), Eastern Washington University (EWU), the University of Washington (UW), and Western Washington University (WWU) at public high schools. Our institutions offer many courses at private high schools, but these enrollments are not included because SB 5048 removed fees for students attending public schools only. Community and technical colleges also offer CiHS courses, and the State Board for Community and Technical Colleges produces a separate report for those institutions.

Sources of data

The Education Research and Data Center (ERDC) provided data on public K-12 student participation, credit awards, grades, college enrollment after high school, and student demographics. Due to the timing and method of data collection, it covers the years 2021-22 through 2025-26 for enrollment data and the Class of 2025 for completion data.

CWU, EWU, UW, and WWU provided information on the locations where courses are offered, and the number of students enrolled. This data is more recent and includes five years of course information. Data from 2021-22 and 2022-23 shows enrollment prior to the new law, while data from 2023-24 to 2025-26 shows the impact of the new law.

Finally, CWU, EWU, and UW offered courses during all five years covered in this report, while WWU began offering courses in 2023-24.

Student demographics

The following data tables from ERDC show the demographics of students enrolled in CiHS courses as reported by public school districts. The student demographics reported include free or reduced-price lunch (FRPL) eligibility, gender, and race/ethnicity.

Public four-year totals provided by ERDC are unduplicated counts of students across participating institutions. Students enrolled through more than one public four-year institution may appear in multiple institutional counts but are counted only once in the public four-year total.

Free or reduced-price lunch (FRPL) eligibility

FRPL eligibility is commonly used as an indicator of socioeconomic status. The tables below show the number of CiHS students categorized by their FRPL eligibility and the percentage of eligible students out of the total. For comparison, the statewide FRPL eligibility for all K-12 students is also included.

Table 1: Students eligible and not eligible for free or reduced-price lunch by institution and total in 2021-22

2021-22	Not FRPL Eligible	FRPL Eligible	% FRPL
Central Washington University	528	407	44%
Eastern Washington University	2,254	1,980	47%
University of Washington	2,991	925	24%
Public four-year total	5,392	3,089	36%
Statewide K-12	-	-	48%

Table 2: Students eligible and not eligible for free or reduced-price lunch by institution and total in 2022-23

2022-23	Not FRPL Eligible	FRPL Eligible	% FRPL
Central Washington University	762	787	51%
Eastern Washington University	2,977	2,776	48%
University of Washington	3,206	1,163	27%
Public four-year total	6,452	4,319	40%
Statewide K-12	-	-	50%

Table 3: Students eligible and not eligible for free or reduced-price lunch by institution and total in 2023-24

2023-24	Not FRPL Eligible	FRPL Eligible	% FRPL
Central Washington University	6,772	4,076	38%
Eastern Washington University	5,016	4,137	45%
University of Washington	5,027	1,705	25%
Western Washington University	49	19	28%
Public four-year total	14,889	8,809	37%
Statewide K-12	-	-	50%

Table 4: Students eligible and not eligible for free or reduced-price lunch by institution and total in 2024-25

2024-25	Not FRPL Eligible	FRPL Eligible	% FRPL
Central Washington University	9,588	5,831	38%
Eastern Washington University	8,866	6,275	41%
University of Washington	5,859	2,160	27%
Western Washington University	207	109	34%
Public four-year total	21,320	12,704	37%
Statewide K-12	-	-	50%

After the implementation of SB 5048, the number of students enrolled in CiHS courses more than doubled compared to the previous year. In the 2024-25 year, total enrollment increased 43% and enrollments for students eligible for free or reduced-price lunch increased by 44%.

Gender

The tables below show the number of CiHS students by gender and the percentage of these students out of the total. For comparison, the statewide percentage of all K-12 students is also included.

Table 5: Student gender by institution and total in 2021-22

2021-22	Female	% Female	Male	% Male	Gender X	% Gender X
Central Washington University	490*	~52%	450*	~47%	n<10	Less than 1%

University of Washington	4,349	54.2%	3,613	45.1%	57	0.7%
Western Washington University	160*	49.2%	160*	49.2%	n<10	Less than 1%
Public four-year total	18,616	54.7%	15,254	44.8%	155	0.5%
Statewide K-12	-	48.0%	-	51.6%	-	0.4%

*=Rounded to the nearest 10 for complementary suppression

In all years for all institutions, males are underrepresented in the CiHS program when compared to the statewide K-12 percentage.

Race/Ethnicity

The tables below show the number of CiHS students by race/ethnicity and the percentage of these students out of the total. For comparison, the statewide percentage of all K-12 students is also included.

Table 9: Student race/ethnicity by institution and total in 2021-22

% White	54.5%	55.1%	48.1%	55.4%	53.4%	47.6%

When compared to the statewide K-12 percentage, the program continues to serve Asian and White students at a higher rate, while Native American/Alaskan Native, Black/African American, Hispanic, Native Hawaiian/Pacific Islander, and Multi-Racial students are underrepresented.

Student outcomes

The data tables from ERDC below show the outcomes of students enrolled in CiHS courses offered by public high schools. The reported student outcomes include participation rates, award of high school credit, award of postsecondary credit at an institution of higher education, academic performance, and subsequent enrollment in an institution of higher education.

Participation rates

Table 13: *CiHS participation rates*

	2021-22	2022-23	2023-24	2024-25
Students enrolled in CiHS in a public high school	50,627	54,354	60,372	73,436
Students enrolled in CiHS (CTCs and 4-yrs)	15,608	18,733	35,372	46,606
Participation rate	31%	34%	59%	63%
Students enrolled in CiHS (4-yrs)	8,510	10,827	23,833	34,284
% of PS total (4-yrs)	55%	58%	67%	74%

When students take a CiHS course, they have the option to earn college credit. Among the courses offered by both public four-year institutions and community and technical colleges, 31% of students who took CiHS courses in 2021-22 and 35% of students who took CiHS courses in 2022-23 chose to earn college credit. After the law change in 2023, the percentage of students who took CiHS courses for college credit increased to 59% in 2023-24 and 63% in 2024-25 indicating that the policy change is related to students who are taking CiHS courses are also choosing to earn college credit.

Fifty-five percent of students who took CiHS courses in 2021-22 and 58% of students who took CiHS courses in 2022-23 who earned postsecondary credit did so through a four-year institution. This percentage increased in 2023-24 and 2024-25 to 67% and 74% respectively.

Award of credit

Table 14: *Percentage of CiHS students enrolled in public high schools earning high school and college credit*

	2021-22	2022-23	2023-24	2024-25
Students enrolled in CiHS in a public high school	50,627	54,354	60,372	73,436
Students earning high school credit	48,608	52,131	57,950	70,726
Rate of earning high school credit	96%	96%	96%	96%
Students enrolled in CiHS in a public higher education institution	15,608	18,733	35,372	46,606
Students earning college credit*	15,453	18,581	34,860	42,203
Rate of earning college credit	99%	99%	99%	91%

*Sources: *ctcLink*, *Public Centralized Higher Education Enrollment System (PCHEES)*

For students in a CiHS course, earning high school credit remains consistent at 96%. The rate of earning college credit appears to drop from 99% to 91%. In last year's report, the rate of earning college credit was 91% for 2023-24 and now with more time to update the data, the rate is 99%.

Academic performance and subsequent enrollment in higher education

The following four tables show student performance in high school, measured by grade point average (GPA), and indicate whether they attended college after graduating, based on their graduation year. Tables 15 and 16 include students who took a CiHS course, as indicated by their K-12 school records. Tables 17 and 18 include students who took a CiHS course, as indicated by their college records, while they were still in high school.

Table 15: Academic performance, enrollment in higher education, and enrollment in a four-year institution of students by graduation year with a CiHS course found in a K-12 record at any point in high school

	2021-22	2022-23	2023-24	2024-25	All Graduates 2021-22	All Graduates 2022-23	All Graduates 2023-24
Students enrolled in CiHS (K-12)	28,937	29,622	31,314	34,912	70,121	71,329	72,483

Sources: ctcLink, Public Centralized Higher Education Enrollment System (PCHEES), National Student Clearinghouse (NSC), OSPI Report Card, and ERDC High School Graduate Outcomes

Table 15 shows that in each of the Classes of 2022 and 2023, over 28,000 graduates enrolled in CiHS courses offered by either a public four-year institution or a community and technical college at some point during high school. For the Class of 2024, this number increased to over 31,000 graduates and almost 35,000 graduates for the Class of 2025. Annually, over 70,000 students graduate from a public high school in Washington.

CiHS graduates in 2022 and 2023 had an average GPA of 3.22, while the average GPA for CiHS graduates in 2024 and 2025 was 3.17 and 3.15, respectively. Based on state and national data sources, 63% of the Class of 2024 who took a CiHS course enrolled in an institution of higher education, compared to 53% of all graduates.

Table 16: Enrollment in a Washington public institution of higher education, enrollment in a Washington private institution of higher education, and enrollment in an out-of-state institution of higher education of students by graduation year with a CiHS course found in a K-12 record at any point in high school

*Sources: ctcLink, Public Centralized Higher Education Enrollment System (PCHEES), National Student Clearinghouse (NSC)

According to this table, graduates with CiHS courses from the Classes of 2023, 2024 and 2025 enrolled in Washington public institutions of higher education at a similar rate. ERDC is awaiting data from the National Student Clearinghouse for private and out-of-state enrollments for the Class of 2025.

Table 17: Academic performance, enrollment in higher education, and enrollment in a four-year institution of students by graduation year with a CiHS course found in a postsecondary record at any point in high school

*Sources: ctcLink, Public Centralized Higher Education Enrollment System (PCHEES), National Student Clearinghouse (NSC)

**Sources: Public Centralized Higher Education Enrollment System (PCHEES), National Student Clearinghouse (NSC)

This table shows that students from the Classes of 2022, 2023, 2024 and 2025 who took a CiHS course for college credit had average GPAs of 3.48, 3.47, 3.37 and 3.33, respectively. Their college enrollment rates were higher compared to all graduates 73% vs 53% for the Class of 2024. ERDC is awaiting data from the National Student Clearinghouse for the Class of 2025.

Table 18: Enrollment in a Washington public institution of higher education, enrollment in a Washington private institution of higher education, and enrollment in an out-of-state institution of higher education of students by graduation year with a CiHS course found in a postsecondary record at any point in high school

Course registrations by school district (2025-26)

School district CiHS enrollment by institution (2025-26)

Recommendations on additional data reporting and disaggregation

Our only recommendation would be to change the due date for the report to align with data availability for the ERDC High School Outcomes report so college enrollment rates of CiHS students in this report can be compared to college enrollment rates of all high school graduates. Because of the timing of this report, college enrollment rates for CiHS students for the most recent academic year had to be limited to summer and fall after graduation instead of the entire academic year, as is reported in the High School Outcomes report.

Appendix A – RCW [28A.600.287](#) College in the high school program

(1) College in the high school is a dual credit program located on a high school campus or in a high school environment in which a high school student is able to earn both high school and college credit by completing college level courses with a passing grade. A college in the high school program must meet the accreditation requirements in RCW [28B.10.035](#) and the requirements in this section.

(2) A college in the high school program may include both academic and career and technical education.

(3) Ninth, 10th, 11th, and 12th grade students, and students who have not yet received a high school diploma or its equivalent and are eligible to be in the ninth, 10th, 11th, or 12th grades, may participate in a college in the high school program.

(4) A college in the high school program must be governed by a local contract between an institution of higher education and a school district, charter school, or state-tribal compact school, in compliance with the rules adopted by the superintendent of public instruction under this section. The local contract must include the qualifications for students to enroll in a program course.

(5) Enrollment information on persons registered under this section must be maintained by the institution of higher education separately from other enrollment information and may not be included in official enrollment reports, nor may such persons be considered in any enrollment statistics that would affect higher education budgetary determinations.

(6) Each school district, charter school, and state-tribal compact school must award high school credit to a student enrolled in a program course if the student successfully completes the course. If no comparable course is offered by the school district, charter school, or state-tribal compact school, the chief administrator shall determine how many credits to award for the successful completion of the program course. The determination must be made in writing before the student enrolls in the program course. The awarded credit must be applied toward graduation requirements and subject area requirements. Evidence of successful completion of each program course must be included in the student's high school records and transcript.

(7) Each institution of higher education offering college in the high school must:

(a) Award college credit to a student enrolled in a program course and provide evidence of completion of each program course on the student's college transcript;

(b) Grant undergraduate college credit as appropriate and applicable to the student's degree requirements; and

(c) Provide course equivalencies for college in the high school courses and policy for awarding credit on the institution's website.

(8)(a) A high school that offers a college in the high school program must provide general information about the program to all students in grades eight through 12 and to the parents and guardians of those students.

(b) A high school that offers a college in the high school program must include the following information about program courses in a notification to parents and guardians of students in grades eight through 12, including by email and in beginning of the year packets, and in the high school catalogue or equivalent:

(i) There is no fee for students to enroll in a program course for high school credit or for students to enroll in a program course for both high school and college credit; and

(ii) A notification that enrolling in a program course for college credit automatically starts an official college transcript with the institution of higher education offering the program course regardless of student

performance in the program course, and that college credit earned upon successful completion of a program course may count only as elective credit if transferred to another institution of higher education.

(9) Full-time and part-time faculty at institutions of higher education, including adjunct faculty, are eligible to teach program courses.

(10) The superintendent of public instruction shall adopt rules for the administration of this section. The rules must be jointly developed by the superintendent of public instruction, the state board for community and technical colleges, the student achievement council, and the public baccalaureate institutions. The association of Washington school principals must be consulted during the rules development. The rules must outline quality and eligibility standards that are informed by nationally recognized standards or models. In addition, the rules must encourage the maximum use of the program and may not narrow or limit the enrollment options.

(11)(a) State universities, regional universities, and the state college, as defined in RCW [28B.10.016](#), offering college in the high school courses shall coordinate with an organization representing the presidents of the public four-year institutions of higher education, and the community and technical colleges offering college in the high school courses shall coordinate with the state board for community and technical colleges to each prepare a report, each disaggregated by institution of higher education, that includes:

(i) Data about student participation rates, award of high school credit, award of postsecondary credit at an institution of higher education, academic performance, and subsequent enrollment in an institution of higher education;

(ii) Geographic data on college in the high school courses, including the name, number, location of courses, and student enrollment disaggregated by school districts and high schools;

(iii) Data on college in the high school student demographics, including race, ethnicity, gender, and receipt of free or reduced price lunch; and

(iv) Recommendations on additional categories of data reporting and disaggregation.

(b) Beginning September 1, 2024, and each year thereafter, the reports must be submitted to the appropriate committees of the legislature in accordance with RCW [43.01.036](#).

(12) The definitions in this subsection apply throughout this section , unless the context clearly requires otherwise.

(a) "Charter school" means a school established under chapter [28A.710](#) RCW.

(b) "High school" means a public school, as defined in RCW [28A.150.010](#), that serves students in any of grades nine through 12.

(c) "Institution of higher education" has the same meaning as in RCW [28B.10.016](#), and also means a public tribal college located in Washington and accredited by the northwest commission on colleges and universities or another accrediting association recognized by the United States department of education.

(d) "Program course" means a college course offered in a high school under a college in the high school program.

(e) "State-tribal compact school" means a school established under chapter [28A.715](#) RCW.

Appendix F – Course titles by subject area

Art
Art Appreciation
Digital Foundations
Drawing
Drawing for Communication
Visual Communication Design
Business
Intro to Business in Society
Communications
Argumentation and Advocacy
Introduction to Public Speaking
Introduction to Technical Communication
Mass Media and the Information Society
Public Speaking
Computer Science
Computer Science Principles
Computers and Applications
Cybersecurity Fundamentals
Intermediate Data Programming
Introduction to Computer Game Development
Introduction to Computer Programming I
Introduction to Computer Programming II
Introduction to Data Science
Introduction to Programming
Programming Principles I
Economics
Economic Issues
Foundations for Business Analytics
General Education Economics
World Economic Issues
Education
Child Development
Ethnic and Cultural Minorities in American Education
Introduction to Scholarship of Teaching

Introduction to Education
Engineering
3D Parametric Computer Design
Computer Aided Design/Drafting
Engineering Graphics
Introduction to Robotics
Machine Woodworking
3D Modeling
English
Academic Writing II: Social Justice
College Composition: Analysis, Research, and Documentation
College Composition: Exposition and Argumentation
Composition I: Critical Read/Respond
Contemporary African American Literature
English Composition: Exposition
English Composition: Literature
Exploring Culture: 16th to 19th Centuries
Exploring Culture: Ancient Worlds
Exploring Culture: Modern and Contemporary
Introduction to Creative Writing
Introduction to Literature
Literary Imagination: Introduction to Literature
Society through its Literature
Survey of Native American Literature
Writing in Comparative Literature
Finance
Personal Finance
Geography
World Geography
Health
Consumer Health
Introduction to Athletic Training
Introduction to Global Health
Occupational Health

History
African American History - Post Civil War
American Experience: A Survey
American History from 1877
American History to 1877
Chicano History
Early African American History
European Civilization 1500 to present
European Civilization to 1500
Introduction to Chicana/o/x Culture
Military History of US
United States History to 1865
US History Since 1865
World History from 1500
World History to 1500
Leadership
Basic Leadership
Event Planning & Logistics
Foundations of Officership
Introduction to Leadership
Leading Responsibly
Math
Calculus & Analytic Geometry I
Calculus I
Calculus II
Calculus with Analytic Geometry I
Calculus with Analytic Geometry II
Finite Mathematics
Functions and Reasoning
Introduction to Statistics
Introductory Statistics
Linear Algebra I
Math Applications & Reasoning
Math in the Modern World
Math Reasoning & Applications
Mathematical Decision Making
Mathematical Reasoning
Multivariable Calculus I
Multivariable Calculus II

Precalculus
Precalculus I
Precalculus II
Precalculus Math II
Pre-Calculus Mathematics I
Pre-Calculus Mathematics II
Statistical Concepts and Methods
Music
American Popular Music
History of Jazz
History of Rock and Roll
Introduction to Music
Music in Arts and Culture
Philosophy
Introduction to Ethics
Introductory Philosophy
Moral Issues in America
Philosophical Voices and Pop Cultures
Physical Education
Abdominal Strength Conditioning
Advanced Swimming
Aerobic Walking
Anatomical/Mechanical Kinesiology
Archery
Basketball
Beginning Badminton
Beginning Swimming
Beginning Yoga
Conditioning Exercises
Dance Fusion
Fast Fitness
Glute/Abdominal Conditioning
Introduction to Jazz Dance
Jazz Dance I
Lifeguard Training
Mat Pilates
Medical Terminology
PE Activities
Soccer
